Post World War II era 5" painted brass medallion
from an all maple up-front mechanical ball check.

2011–2012

AMF Center Product Line

New products are developed and released throughout the year. Visit our website regularly pinsetterpartsplus.com

For centers equipped with "Frameworkx" seating

Seating Pin Removal Tool

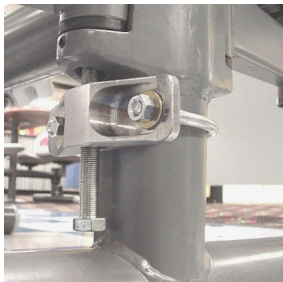

Part No. **PPP-FXPRT**

NEW!

\$119.95

Thanks to Mike Kearney NE

Machined from 4140 steel for durability.

For spring replacement, easily unseat hard to access pins in Frameworkx seating booths.

Seating Pin Extractor Tool

Part No. **PPP-FXPET**

\$24.95

NEW!

Using vice grips can result in burrs needing removal before re-assembly.

Use this non-marring tool to fully extract remainder of pin from seating for spring replacement.

Heavy Duty Shuttle Strap

Part No. **PPP-HDSS**

\$11.50 – 1 per pkg

Longer mounting bolts included.

4mm steel plate, ensures 7 and 10 short shuttle tubes stay rigid.

NEW!

Unique 4 bolt design adds additional strength to resist twisting, bending, breaking and rear clamp hardware loosening.

Replacement Reflectors

Part No. **PPP-RR1**

\$16.00 - pkg of 2

For all triggering systems using center mounting 3 1/4" reflectors.

Replaces Brunswick Vector
Part no. 57-860507-000

Center mounting reflectors measuring 3 1/4"

Package of 2 reflectors.

No unneeded mounting hardware.

2000 Power Lift Hood Insert

Part No. **PPP-HI**

\$19.00 - pkg of 2

If your center has Brunswick 2000 type power lift ball returns, replace cracked and broken hood inserts at a fraction of OEM cost.

Perimeter is not beveled on these replacements which may produce a very slight raised edge on some hoods.

Save a lot of money while keeping customer-area looking good.

The 4 mounting holes are recessed like the original.

Only the mechanic will know the difference.

Distributor Anti-Sway Kit

Part No. **PPP-ASK**

\$19.95

Eliminates distributor sway at bin stops due to insufficient spring tension or bent spring holders.

These heavy duty Safety Link and Lateral Drive springs have been proportionally strengthened for smooth and deliberate stops at all bin positions.

The included heavy duty Safety Link spring holder has a Rockwell hardness rating of R-45 and is an important feature in maintaining consistent distributor performance.

Rids distributor of added spring clutter for a clean pinspotter appearance.

Safety Link Spring Holder

Part No. **PPP-SLSH**

\$11.25 - pkg of 2

Spring holder only. For distributors not requiring complete anti-sway kit.

OEM type holders can bend. A bent spring holder results in spring tension loss than can lead to incorrect pin delivery to bin due to distributor sway.

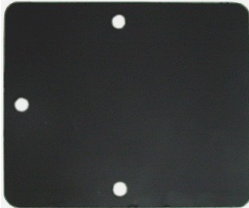

R-45 hardened. Will not bend or deform.

Cushion Mount Shims

Part No. **PPP-CMS**

\$12.95 - pkg of 2

Made of 1/8" recycled UHMW

Works excellent for block with hole worn through. Abrasion resistant UHMW will withstand years of tube wear and end further damage to tube end.

Shim cushion mounting box on common kickback side. Use number of shims necessary to move tube weldment more fully into the cushion support block on ball door side.

Cushion Block Shield

Part No. **PPP-CBS**

\$4.95 - pkg of 2

UHMW shields will resist wear much better than steel shields and will not wear away tube weldment ends.

Made of recycled UHMW

Orient Pan Turn Mat

Part No. **PPP-OPM**

\$12.75 - pkg of 2

Mat forces pins to turn immediately onto distributor belt. Helps avoid jams.

Thanks to Dave, West Des Moines, IA

Adhesive backed - easy application. Great help when breaking in new pins.

No-Slide Pin Spot

Part No. **PPP-NSPS**

\$29.25 - pkg of 9

Patent No. 7,704,152

Over 225,000 Sold

No-Slide Pin Spot will not interfere with normal ball or pin action.

Won't break down under normal bowling lane maintenance.

Peel and apply the clear adhesive backed No-Slide Pin Spot according to instructions.

Acceptable for use in USBC Certified Bowling Centers

No-Slide Pin Spot assures that pins hit hard enough to move... will fall down.
